

FFN Contingency/School Holiday Hours

School Holiday Care Hours/Contingency time

These hours cover times when a school-aged child is not in school, such as early release and no-school days and are only available for school-aged children. During the school year, you may claim for payment between 35-70 School Holiday Care hours each month. During the summer break of June, July, and August, there are up to 115 hours each month. To claim for payment for these extra hours, fill in the box on the SSPS Service invoice labeled "School Holiday Care."

Note: The total hours of care claimed for payment, including school holiday hours, cannot be more than the total hours of care you provided in that month. Only use the "School Holiday Care" on the invoice if the hours of care provided (including school holiday hours) are more than your regular authorized hours.

Families are responsible to report if they need additional care beyond holiday school closures.

Month	Hours Allowed
January	70
February	35
March	70
April	70
May	35
June	115
July	115
August	115
September	35
