DOH Managed File Transfer (MFT) Access Instructions

In Feb 2023, DOH moved from Secure File Transfer (SFT) services to Managed File Transfer (MFT) services. MFT services exist so that agency authorized users have an approved secure means of transmitting and receiving confidential and restricted information. DOH brokers MFT service from WaTech. This service is not intended for transfer of non-confidential data or information.

1. First request access to MFT via DOH's Home Visiting Team

To request access to MFT, please email <u>homevisiting@doh.wa.gov</u> with the following information.

- First and Last Name
- Email address
- Program name
- 2. You will receive an email from WaTech informing you of your username and temporary password.

Visit <u>State of Washington - MFT Site - Login</u> (mft.wa.gov) It is recommended that you use Edge, Firefox, or Chrome to access this site.

- 3. Enter your provided **username** and **temporary password** from your email in the corresponding fields and click "Log In".
 - a. Note: Username and Password are **<u>both</u>** case sensitive.

4. At this point, you will be prompted to set a new password.

5. Enter the temporary password from your email as the "Old Password" then enter a password of your own choosing as the "New Password".

6. You will then be prompted with the "Password was changed successfully," message.

7. Enter in your MFT username and your newly chosen password.

Password Policy

The password policy includes the following syntactical requirement:

- The password minimum length is 10 characters
- At least two of those characters must be alphabetic lower
- At least two of the characters must be numeric
- At least two of the characters must be a symbol ($\sim@\#\%\%\&*()_=+<>?/;:[]{},.)$

So by that logic... here is an example of a password that meets the above listed criteria:
