Revised Date: October 1, 2025

Early Learning Division

Washington State Department of
CHILDREN, YOUTH & FAMILIES

Approved for distribution by Jason Ramynke, Child Care Subsidy Program Administrator

¹The program uses State Median Income (SMI) to determine copay categories and income limits. The \$215 copay level is reserved for reapplications only; new applications with income over 60% SMI would be considered to be over income and be denied.

²The income limit column is not used to determine eligibility at application; it is used to determine the point at which a consumer's income would warrant case termination during their eligibility period.
