

Safety Recall Statement of Responsibility For Equipment in Licensed Facility

I fully understand that as the licensee, director or owner, or designee of a licensed facility it is my responsibility to ensure all equipment in the licensed space of the child care facility is safe. I will regularly review the Consumer Product Safety Commission website or call the toll free number to stay informed on items recalled due to hazard.

I also understand this is in addition to my responsibility for ensuring safe equipment, materials and supplies outlined in Washington Administrative Code (WAC).

By signing this document I agree to regularly review the information on the Consumer Products Safety Commission website, or toll free number and stay informed on items recalled due to hazard.

I agree that I will remove items from my licensed child care space if they are found on the CPSC website or toll free number.

Date: _____

License Provider ID: _____
