

Please help us keep our clients and staff safe from COVID-19

We are taking measures to ensure our clients and staff are as healthy and safe as possible. With the spread of COVID-19 in our state, we are, out of an abundance of caution, asking that staff or any visitors who are not feeling well, not visit or have contact with others.

All staff and visitors to our DCYF offices must self-screen.

All staff and visitors must prescreen themselves before entering the building by answering the following questions YES or NO: Be sure to answer YES only if the experienced symptoms are not associated with any pre-existing conditions (i.e., allergies or asthma) or cannot be attributed to another health condition:

A new fever (100.4°F or higher), or a sense of having a fever

A new loss of taste or smell

A new cough

New fatigue

New shortness of breath or difficulty breathing

New congestion or runny nose

A new sore throat

New nausea or vomiting

New muscle aches/pain not caused by a specific activity (such as physical exercise)

New diarrhea

A new headache

Within the last 14 days, have you had close contact (6 feet for more than 10 consecutive minutes) with someone who has been diagnosed as positive for COVID-19 or suspected of being positive for COVID-19, without appropriate personal protective equipment

New chills or repeated shaking with chills

We appreciate your cooperation. Again, this is being done out of an abundance of caution to keep the spread of COVID-19 from our staff, clients and further into our communities.
